

Description**UNLOCKING LUBRICANT PENETRATING****Details**

Penetrates deeply even in presence of: oils, greases - Rust – Carbonates dirt, and in general calcareous powder etc. Formulated with vegetal oils and lubricants of natural origin. Unlocks locks, joints, carriages, rollers, chains, bolts, nuts. Protects and prevents from corrosions. Melts carbonates residuals and calamine simplifying injectors extraction. Removes humidity and restores electric contact preventing short circuits.

Product Characteristics**ADVANTAGES**

PENETRATING

for heavy duties

LUBRICANT

Several products in one

UNLOCKING

Rust remover

WATER-REPELLENT

Removes humidity and restores electric contacts

Physical-Chemical properties

	Liquid product	Aerosol product
Color and Aspect	Straw yellow liquid	
Specific weight	0,810 kg/lt	0,612 kg/lt
Odor	Specific	

Suggestions for use**LUBRICANT**

Lubricate in active way and durable over time

APPLICATIONS**NTI-CORROSION**

Grants protection against water, humidity, freeze and related corrosive effects even in critical situations

Workshops of heavy vehicles and workshops in general. Forklifts and forklift trucks (lubricant for chains) Stonemasons, maintenance of components immersed in water with rust and organic dirt. In every kind of situation where it is necessary to clean, lubricate, protect, deoxidize and unlock

WATER-REPELLANT

Eliminates humidity and restores electric contacts preventing from short circuits (for this use DO NOT USE while in tension)

DETERGENT

Easily removes grease and tar stains etc.. from every kind of non-porous surface. Can be used on every kind of plastic and metallic surface

Way of use: Spray abundantly POWER LUB on surface at a distance of about 20 cm.

Wait for the product to penetrate into deep and work. Shake the aerosol before use.

Available packaging

400ml.
